A Full Crew law was enseted in Missouri and signed by the Governor in April, In November, 1914, it was submitted to a referendum vote. The people repudiated by a vote of 324,058 against 185,953.

A proposed Full Crew law for Texas failed to pass owing to the popular protest against

the low by a vote of 324,056 against 18,0595.

It is 197, Generate Charles E. Faglas, of Nev York, voted as attempt to east a Vote of 197,050 against 197,050 ag

defeated. In Pennsylvan's, New Jersey, New York, and Maryland such laws are in force. In the intere-. of the public, the rallroads, and the prost hody of radroad employes, these burdenoous laws should be republed. In Pennsylvanis, approximately 65,000 men are apoppored in train service. Only 2,000 of these are extra brakenum.

To Provide for the Utmost Safety of Patrons and Property is the First Duty of Every Well-Managed Railroad

The railroads of Pennsylvania and New Jersey fully realize the importance of properly manned trains. Were the claims of those who arbitrarily forced the railroads, under the Full Crew Laws, to employ men for whom no jobs exist just and warrantable, the railroads themselves would be the first to recognize those claims.

Full Crew Laws Costly

Internate Commerce Commission statistics conclusively prove that Pull Crew Laws work three grave hardship—e.e.:

2—They cost the railroads and thousands of men and women who, directly, or indirectly, as depositors in banks, trust compasies, and savings tunds are inversors in milroad bonds and stocks, approximately 3,400,400 a year in wages for unnecessary labor.

3—They deprive the people of a vast amount of improvements.

No Trains Undermanned

English was a server and

Do You Know that Railroad Expansion Makes Work and Stimulates Industry?

Money saved by the railroads flows back to the people. The \$2,000,000 paid annually by the mibroads of Pennsylvania and New Cief Common and Com

more sof maintenance persons in many occupations.

Increased industrial activity wells passenger and freight traific. This means more trains and real work for additional crews.

In turn, in necessitates more loconitives and care, increased equipment, exection of new and resolvent of stations, reduction of grades and curve, elimination of grade crossings, construction of sidings in producing territories, increased passenger and freight terminal facilities.

Let ell get together to start the whaels of industry turning-open wide the doors to prosperity.
